

Biggest Dividend Is Announced by Glendale Savings

The Directors of Glendale Federal Savings and Loan Association have declared the annual dividend at the rate of four and one-quarter percent annum for the quarterly period ending Dec. 31, 1959, according to an announcement made today by J. E. Hoelt, president and founder.

"The four and one-quarter percent rate," commented Hoelt, "will be the highest ever paid by Glendale Federal Savings during our 25-year history. Two factors have brought about the increase. First, the influence by a highly competitive demand for money, and secondly, because yields from real estate loans have been sustained at a vigorous and high level as the result of the healthy economic growth of the Southern California area."

Glendale Federal Savings, which celebrates its 25th anniversary on Oct. 1, maintains offices in Glendale, Arcadia, El Monte, Lomita, Montrose, Pacific Palisades, San Pedro, Studio City and Westwood.

Doctor Warns Against Attack of Measles

Parents of Torrance children were cautioned this week to be on guard against an outbreak of measles in their community.

Dr. Roy O. Gilbert, county health officer, warned that "Los Angeles county is experiencing a measles year," with five times as many cases as last year reported.

According to Gilbert, an attack of measles is seldom serious to healthy youngsters over 5 years old.

Dangerous to Children

But, "in sick children or adults who are not immune, or in children under five, the disease may give rise dangerous complications including pneumonia, ear infections or kidney impairment," he said.

Measles may be contracted at any age. The first symptoms usually resemble those of a cold, and the disease spreads very easily.

If your child becomes sick, call your physician, Gilbert advises. The doctor may treat the child with an injection of a protective serum called gamma globulin.
